

**ArLINE** Remote Monitoring,  
Alarm and Intercom System for Lifts

**ArLIFT** The Internet of Lifts

# ArLINE

Internal battery, battery charger, battery level monitoring and battery failure notification

Easy and quick adjustment via ARKEL Cloud

Remote firmware update

Compatible with EN 81-28 and EN-81-70 standards.

Easy connection with ARCODE, ARL-700 and ARCUBE via CANbus

## ArLINE Remote Monitoring, Alarm and Intercom System for Lifts

### ArLine Units

#### ArLine-M

Main unit (with built-in GSM/GPRS module and battery)

#### ArLine-S-COP

Non-enclosed alarm unit used in the car operating panel

#### ArLine-S-TP

Enclosed alarm unit used in the well on the car roof, under the car/pit

#### ArLine-S-INT

Intercom unit used in the machine room or lift control panel

### ArLine Specifications:

- ▲ Remote alarm system compatible with current EN 81-28:2018 (+AC:2019) and EN 81-70:2018 standards
- ▲ EN 81-20-compliant intercom system
- ▲ Automatic communication test and failure notification
- ▲ Alarm filtering functions
- ▲ Instant alarm and error notifications via SMS and e-mail
- ▲ Instant monitoring of elevator error codes and alarm status via ARKEL Cloud
- ▲ Easy connection using only four cables
- ▲ Programmable five inputs and two relay outputs
- ▲ Getting directions to the building with lift failure on mobile devices

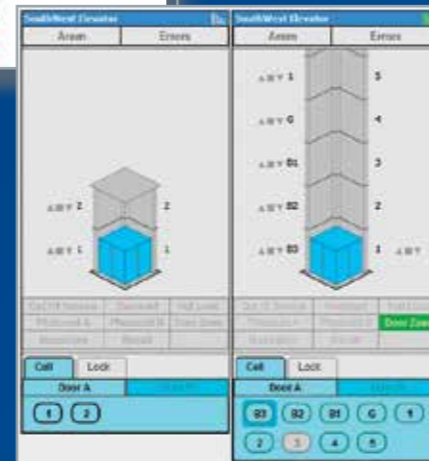

# ArLIFT

Your best solution partner in the future based on its experience, dynamic team, designs and efficient service support, as it has been your best solution partner so far.

Easy connection to ARCODE, ARL-700 and ARCUBE via serial port

Registration form fields:

- Name: Edward Hurley
- Email: edward.hurley@geminoxagh.com
- Phone: 632 000 80 01
- Mobile Phone: 654 000 00 01
- Password: CT400T
- User Type: Company User
- Permissions:
  - ☐ Can manage own firm information.
  - ☐ Can manage own firm users.
  - ☐ Can manage own firm assets.
  - ☒ Can monitor own firm assets.
  - ☐ Can manage security on own firm assets.
  - ☒ Can access technical information on own firm assets.
  - ☐ Can create service requests for own firm assets.
  - ☐ Can view service logs for own firm assets.
  - ☐ Can view reports for own firm assets.
  - ☐ Can assign service requests for own firm assets.

Getting directions to the building with elevator failure on mobile devices

Instant monitoring of elevator error codes and alarm status via ARKEL Cloud

# ArLIFT The Internet of Lifts

## ArLift Specifications:

- ▲ Instant alarm and error notifications via SMS and email
- ▲ Thanks to remote elevator monitoring, authorized users can live monitor statistical data, elevator failure status, call status, floor locking status, car position and car speed
- ▲ Remote diagnostics, live monitoring of control screens
- ▲ Remote control via mobile phone and computer (floor calls, emergency calls, stop locking, parking mode, door locking, etc.)

## ARKEL CLOUD WORKING PRINCIPLES

- . The data received from ARCODE and ARCUBE are transferred to ARKEL Cloud through ArLIFT and ArLINE. In this way, the data in the ARKEL Cloud can be live monitored by authorized persons using any device with internet access.
- . Any failure in the elevator system is notified to authorized users via SMS or e-mail.
- . You can get detailed statistical data and follow up the annual maintenance periods.

## Frequently Asked Questions

### How can I download the ARKEL Cloud access software?

There is no special software to access ARKEL Cloud, no installation is required. Since all ARKEL CLOUD functions are web-based, you can access it via any compatible internet browser (Chrome, Internet Explorer, Edge, Firefox, etc.) and enjoy all its benefits.

### Can I access ARKEL Cloud on mobile devices?

Yes. You can access ARKEL Cloud from all devices (smartphones, tablets, desktop computers) through supported internet browsers.

### How can I register for ARKEL Cloud?

To access ARKEL Cloud, you must purchase a compatible device.

If your company will use ARKEL Cloud for the first time, you must register your company. You will then be assigned an administrator and password. Call ARKEL Technical Support Department to register your company. After confirming your company information (company name, address, contacts) and the serial number on the label on your ARKEL Cloud compatible device, our colleague will send your user name and password to your email address.

Each company must do this only one time. Once your company is registered, you can register all other ARKEL Cloud compatible devices by yourself using the serial number for each device. You will also be able to easily create and authorize user accounts through ARKEL Cloud for other users in your company or for your customers.
